FINDING THE JOY *in the* JOURNEY

Walk for Willow is a 1 mile walk benefiting a beautiful 6 year old girl who lights up a room with her infectious smile. Willow was born with a rare neurological condition called MPPH Syndrome. She is 1 of 28 in the world with this condition. She is non mobile, non verbal, and fed through a tube in her belly, along with many other complications.

Willow's journey has not been easy, each year we hit new speed bumps. This year has been no exception, with the additional diagnosis of uncontrollable epilepsy, reoccurring pneumonias, and another surgery for her hips in the books. Despite our bad days we have learned to cherish each day, enjoy every smile and find the joy in the journey.

We're often asked with Willow's diagnosis what her life expectancy is, and the truth is, we don't know. This event was initially established to celebrate Willow's accomplishments each year. This will be our 6th Walk for Willow and we're hoping to make it our biggest celebration yet for Willow.

JOIN US AS WE CELEBRATE WILLOW & COME TOGETHER TO MAKE A DIFFERENCE.

We're hoping, with your help, we can raise funds to help the family with Willow's on-going medical expenses — AND hopeful to also help purchase a handicap accessible stroller and car seat for Willow. This will allow the family to take Willow on more adventures comfortably. Her wheelchair is her primary means of transportation and unfortunately Willows muscle tone get so tight at times that she is not comfortable in it for long periods.

Thank you for your support!
